SCOPE OF WORK and DETAILED narrative description of the wireless communications facilities work proposed and the reason or need for the work, e.g. gap in coverage, capacity, upgrade in carrier equipment, modification of support structure or a combination. **Do not assert a gap in service or an expansion of the service area, unless a true a gap can be proven to exist.**

Commnet Wireless is proposing to install a new 140' self-support telecommunications tower. This site will cover the village of Cuba. It will also cover Highway 550 through Cuba for approximately 7 miles. There will not be any handovers to the south as there will be a coverage gap there even when the new Cuba South site gets commercially deployed due to terrain blockage along this highway. This tower will have the ability to collocated on by multiple carriers in the future.

Applicable Version of EIA/TIA Structural Standards, i.e. Revision F or G G

Amount of Expert Assistance Escrow Deposit or Fee: \$8,500.00 Amount of Community's Application Fee

Date Escrow Deposit Submitted:
