

**Addendum # 1**  
**RFP# FY17-SCPW-02**  
**Engineering Services**

1. Is there a page limit to your proposal?

**There isn't an actual page limit but your proposal could direct reference any pre-prepared promotional material if referenced and clearly marked. Promotional material should be minimal.**

2. Is there a maximum dollar amount for the 4 year contract?

**No**

3. Is there a maximum dollar for each task order?

**No, that will be dependent on the tasks that will arise and the complexity of each task.**

4. Since this is a Qualification Based Selection, the Cost Proposal (Rate Sheet for Services) is submitted in a separate sealed envelope. However, the evaluation factors list cost proposal. Is that evaluation criteria not applicable then to this RFP?

**As you can see by the points assigned to the Organizational Experience, Organizational References and Mandatory Specifications, this is more a Qualification Based RFP. We are requesting your company's Rate Sheet as part of the Cost. The Cost proposal doesn't come into the scoring until after The Organizational Experience and References and Mandatory Specifications have been scored by the Evaluation Committee. The Committee is unaware of any of the costs that an Offeror has submitted until all evaluations have been turned over to me. This way the costs can not sway the committee members.**
