**Subject:** Questions regarding Draft

Hi Makita

WE are wondering when another draft will be ready for review? it doesn't seem like enough time to gives us to review prior to the next meeting.

We will also release a couple of reports based on the Sandridge application and the draft Ordinances with Recommendations we now have a hydrologist working for us, a former engineer from Halliburton who worked on cement casings for 30 years. We will send the Comments to you on Tuesday.

We are also inviting several guests to attend this meeting since you were the only one the showed up from the County.

the Congressional Delegation (staff reporter), Bernalillo County, ABQ City Councilor and Bernalillo County Commissioner and PRC Representatives, and Rio Rancho City Councilors. They are interested in listening even if the the rest of the Boards members and staff will not.

Suggestion: Please have a statement as to why the Commissions have ignored the request for a moratorium.

There have been indications that entities are interested in a Joint Powers Agreement under an extraterritorial zoning area with the county on Rio Rancho Estates and other areas where oil and gas are targeting other unincorporated areas that will be vulnerable to current oil drilling practices. Perhaps the long standing issues in these areas will calm tensions with the county in this area and together strengthen the police powers of the oil and gas ordinances.

If the county out right refuses to negotiate the agreement, we want to why and under what basis that decision was reached. Since the Ordinances have not been approved this is something we think that the county should consider. The issues are cost associated with drilling and everyone here is a stakeholder and should have a say.

Both the city and county have the same talking points and the same time lines that is too much of a coincidence for people to believe that you both do not have the same

bull masters.

There are certain things we need to have clarification on and you would have to find items out. Having Mike Springfield and others there we could have a conversation about in public to discuss it prior to a public meeting in commission chambers.

Thank you again for your hard work on this issue. I do appreciate the county holding the meetings and we have to be heard not submit comments into the black hole of Mike Springfield's office.

We are suggesting that you scrap this ordinance and use the Miguel Ordinance as a basis to edit from there. Because there is no way this draft it is worth it weight to give any protection

I would be interested in talking to about this and Wanted to run it by you prior to our conversation  
respectfully,

Elaine Cimino
