Subject: Proposed Sandoval Oil and Gas Ordinance

My name is Bill Shepherd (PhD) , living at 77 Quail Meadow Rd, Placitas.I am a retired scientist. I cannot,for the life of me, understand why you would proceed to vote on the Stoddard ordinance prior to seeing the results of the geological study due in May. With the risks involved, particularly to the water supply in and around Albuquerque, I strongly urge you to table the proposed ordinance until there is enough information available to make decision in the best interests of the citizens of this area.

Thanks for your consideration,

Bill Shepherd
