Subject: Proposed Sandoval County Oil and Gas Ordinance

I am a retired technologist from Los Alamos Natl Lab living in Sandoval County for 33 years. I am very concerned about the proposed Sandoval County Oil and Gas Ordinance.

The risks to the quality of our water as well as the threat to the beauty of our lands cause me to request the Stoddard Ordinance be tabled.

Please await the results of the NM Tech geological study due in May. This is especially important to the aquifer below the county.

I also request that a task force be set up in the interim to work on the issue (to include residents from a variety of municipalities, tribes, and areas).

Thank you for your time and attention to this matter.

Catherine Conn
