**Subject:** Oil and Gas ordinance

Dear sir/ma'am,

I write to you as a citizen of Sandoval County to let you know of my strong opposition to oil and gas development in my backyard, especially fracking. There are too many cases of family homes ruined by sink holes, earthquakes, and contaminated water supplies that the industry would have you believe have nothing to do with development. Further, it is extraordinarily alarming to learn that if the ordinance were to pass, it would allow one unelected official to approve development projects without public approval or comment.

Sincerely,  
Bryan Brindeiro, MD
