Subject: Oil and gas ordinance

I, Joseph Henderson, 762 Calle de Blas, Corrales NM am vehemently opposed to the oil and gas ordinance being voted on. I have attended all the meetings and what I see is a total absence of basic democracy. All the commissioners know how they are going to vote before the meeting starts.

This so called ordinance is an open door to the oil companies with no control at all by the citizens of Sandoval County. Give the citizens time to amend this bill before a disastrous epoch of irresponsible drilling is allowed to start. Sandoval County is about to be the laughingstock of the nation due to the complete lack of oversight this ordinance provides.

Joseph Henderson

Blessings to All. May we all be free of suffering.
