**Subject:** Comments on the Proposed Sandoval County Oil and Gas Ordinance

Please keep the drilling further away than 750 feet. There is lots of vacant land with oil/gas under and we could all live side by side friendly. I'm out of town and unable to attend in person. I also don't have a deeply studied position, but believe it can be obvious what is and what is not safe and "friendly" on this issue. Also, what is necessary to have due process on the activity.

Please keep my trust.

Regards,
