Subject: Drilling permits and special use

Good afternoon,

I'm writing to express my concern about the ordinance to allow one staff to approve drilling permits without public comment or notification. I'm sincerely concerned about the water quality in the area and the inherent danger of allowing oil and gas companies to drill with appropriate safety procedures in place. The current ordinance fines of \$300 will not but much of a deterrent to companies to do the right thing and protect our water supply. I'm requesting that you make changes in this process to protect the drinking water of the nearly million people who depend upon the Albuquerque Aquifer.

Thank you,

Deborah D Dawson
