

- ❑ Placitas Herd Survey - 143 horses roaming in 20 bands
- ❑ Immunocontraception Treatment
  - 2019 - 78 horses treated with primer / 63 boosted
  - 2020 - 51 treated to date
- ❑ Placitas Free-Roaming Horse Herd Management Plan - Working Draft I
  - Goal 1 - Reduce reproduction using the immunocontraceptive PZP and support herd health via annual PZP treatment .
  - Goal 2 - Improve herd and community health and safety while maintaining the highest quality of life possible for the horses.
  - Goal 3 - Implement humane, science-based herd management for the Placitas herd throughout the life of the herd.
