My husband and I are completely against the townhome complex as set forth by Orville McAllister et al in this submission. It will have a negative impact and likely result in a higher crime count necessitating responses and therefore likely increasing costs by the Sandoval County Sheriffs Department. Hopefully, the increased costs of protecting this area will dissuade the P&Z Board into granting approval. One has only to look to Albuquerque and the many murders, auto thefts, burglaries etc. Occurring in the high density housing areas. There is almost a nightly continuous reporting of crime that occurs in the aforementioned high density areas. The citizens of Placitas have no desire in turning our quiet, LOW crime community into an area that will constantly have the sounds of sirens responding to emergencies. It is not possible to control the influx of crime in high density housing areas. Please do NOT approve this submission. The additional costs to Sandoval County and its' taxpayers will be prohibitive. Thank you.
