Comments:

Walmart, Lowes, Home Depot and other big corporate stores are open with little or no social distance or any other proposed rule for "small business" This action has been discriminatory and biased. Small business as the backbone of Sandoval County revenue thru GRT and employment have done our part to prevent the spread of Covid 19. Some of us have lost their business and others will very soon. Please encourage Governor Grisham to move to Phase two of her plan to reopen. Phase 3 two weeks after that. Even playing field for all. As I participated as one of the 15 on a committee formed by the Governor's office I can say all business from around the state is ready to open and follow social distance regulations.
Thank You Mark Guerin
