Comments:

As a constituent who resided in this county and with a small business in this county as well, I am in agreement to have all small businesses open up and do business. It is unfortunate that we will see the ramifications of what was implemented to our county's economy with the closing and limitation we were all put under. I as a business owner do hope that my county commissioners assist all small businesses, that were impacted by these closings and limitations with resources, support and assistance. I greatly appreciate your time and effort on this resolution.
