Comments:

The Governor has totally mismanaged this crisis. She has allowed big box stores to remain open with little regulation while small businesses close or are forced to restrict their operations. Many small businesses are closing for good, while huge out-of-state big box retailers are thriving. How is it fair to us, small business owners that are the backbone of NM economy. I can go into Home Depot and shop for anything I like mask or no mask, gloves or no gloves, but I cannot go to a NM state park an camp 50' from other people? With so few cases in this state, we are locked down and restricted from many of the things we love to do while I can be packed in tight spaces with tons of people in Walmart.
