Comments:

I believe that it is past time to open the economy in New Mexico and Rio Rancho. The healthy do not need to be punished or protected by the government. We are adults and business owners and know how to be responsible to our employees and customers who are both the life blood of our businesses. The science is out and the numbers no longer can be used to mandate this kind of continual reaction and destruction of our economy. Separate the sick and elderly and lets get back to our lives and move NM forward.
