**Comments:**

Our small businesses are having to shut their doors permanently right now while places like Walmart, Lowes and Home Depot thrive. Local Nurseries have lost most of their yearly income from being forced to close while the big stores rake in the profit for the same product. We NEED small business!!! Walmart doesn't NEED this business like our local everyday small businesses do. These people are our community and Governor Grisham is failing them horribly. The majority would be able to follow social distancing guidelines just as well, if not better than the big stores and ease some of the crowding in those spaces. Our Mom and Pops and small businesses need us to support them.
