**Comments:**

As an Independent Contractor that works with other stylists, we are perfectly able to operate in our salon, safely and carefully! I guarantee you better than big box stores! We are trained to be clean. We are losing our livelihoods because most small business isn't important enough to be essential in the eyes of our big government! I would puck our salon to walk into any day before big box. (A little late for the masks, 2 months later???)
