Comments:

I am writing to voice my strong objection to Intergovernmental Agreement proposed by fire chief Masterson (Agenda item #9) regarding changes to the fire and EMT services in the La Madera area. If this flawed policy is implemented, fire and emt services for the area served by the La Madera station will be degraded. Why would the county consider such a change?

To consider such a change without addressing the impacted community is irresponsible. A year ago Masterson committed that the fire and emt services would not change.
