Comments:

Good Afternoon,

We recently purchased land in San Pedro Creek Estates and will start construction on our future home soon. The location of the nearby La Madera volunteer fire station was one of the many things that attracted us to SPCE. It has come to our attention that the proposal in this evening's agenda would likely close this station making response times to our home significantly longer. We strongly urge the commissioners to keep the La Madera station open.

Thank you,

Robert and Kelly Knebel
