Comments:

The La Madera Volunteer Fire Department is a very valuable resource for our "forgotten" corner of the county. If it is closed and the Bernallilo Country station on Frost Road becomes our first responder for EMS and fire services, we will lose considerable response time for emergencies and we lose many highly trained personnel. It will also strain the resources that are currently available to Bernallilo County residents who depend on the Frost Station Fire Department.

The LMVFD should remain open and funded by Sandoval County.
