Comments:

ZNCH-20-001: Re-zoning for higher-density multi-family residential uses, for approximately 8.32 acres, located at 221 New Mexico State Highway 165 (NE corner of New Mexico State Highway 165 and Tierra Madre Road).

We would like to submit that we are in favor of re-zoning so that others who can't afford a large home in Placitas, or must downsize would have an alternative option. It is a great community and a difficult one to leave. But if the options available do not support it then one must. My husband and I have lived in Placitas for 20 years and would like to stay into our later years. A housing development like this may give us the option to stay.

I am sure water and traffic studies will be conducted and the higher-density housing will have to follow those guidelines.

Thank you for your time and consideration.
