Comments:

Re: ZNCH-20-002, I am in favor of more affordable housing. I just wonder if Placitas is the right place for all this additional waste that will be generated by these additional housing units and how that will be handled. In addition, Placitas water is both limited and requires significant treatment to be potable. Is this part of the construction? Is there a sewer line going in? Are there additional plans to handle the increased traffic? The devil is in the details. What are the details?
