Comments:

Commissioners,

Thank you all for your service to Sandoval County. 6 years ago I was on the committee that established The Sandoval Economic Alliance along with many Community business leaders and we spent many hours and weeks forming this great organization. I am still on the original Board of Directors of SEA and even though I term limit this year, I have asked with a few others to continue on the board. SEA is a vital part of economic growth in Sandoval County and in my opinion is now being lead by an extremely competent individual who can take the organization forward for years to come.

I strongly urge your continued support for this valuable resource that exists to promote the growth of economic based jobs in our great County. Even though I may not reside in the County, my Business involves the assembling of Hundreds of acres in Rio Rancho for growth, most recently, the Los Diamantes communities which includes a 60 acre Business Park for the creation of hopefully about 200 new economic based jobs to bring to the County
