Comments:

Regarding Sandoval county Commissioner hearing on higher-density multi-family residential uses in Placitas June 18th:

My wife and I moved from out of state in 2015. Our choices for our home hunting effort included Albuquerque, Santa Fe and Placitas. Albuquerque and Santa Fe were eliminated from our choices because of the congestion, crowding and crime, among other things. We settled on Placitas because it offers what Albuquerque and Santa Fe cannot offer in the way of open space, much less crowding, and the sense of a rural environment that we prefer.

We request the Sandoval county Commissioner deny the request to increase the density as proposed at this hearing to ensure our community remain as the open and rural community we chose to live in when we moved here in 2015.

Thank you for your consideration.
