Comments:

I fully support having a animal shelter in Sandoval County. I feel we are in desperate need of a shelter for the benefit of the animals that are running loose and are without homes or shelter. The residents of Sandoval County will also benefit from a shelter by being able to rescue an animal if they are looking for a pet and will not have to go to Bernalillo County to get one. I feel Sandoval County has been way to long without a shelter. Thank you in advance for your consideration of having an Animal Shelter in Sandoval County.
