Comments:

I am writing about the possibility of an animal shelter in Bernalillo for Sandoval County. Stray animals have always been an issue for Sandoval County especially since we have many rural locations with little to no access for those with low income. I have been involved with picking strays up for many years and the struggle to find owners or a reputable place to send them is frustrating. A kennel hours away in Cuba (last I heard) is not the solution for these scared animals in Bernalillo and the surrounding cities. I am hoping the county commissioners will consider this brilliant idea for a huge problem we face daily.
