**Comments:**

I write in support of a Sandoval County Animal Shelter. I know from postings on various social media locally that every day many animals are lost, run away, or are simply dumped in our area by people who can no longer care for them. All of these pets, as well as the many wild animals who are injured or ill, deserve the care of a local, specialized facility to care for them, place them, or re-release them to the wild.

Please vote to support this important County resource.
