Subject: Table the Stoddard Ordinance until due diligence is completed.

Dear Commissioners,

Please table the Stoddard Ordinance until you have read and completely understood the NM Tech Study, which was paid for with our taxpayer funds (\$60k). Also, please proceed with an abundance of caution in allowing any activity in the Rio Grande rift, river and basin. And, coordinate with other stakeholders, especially downstream counties like Bernalillo.

Thanks for your consideration,

Bill Deaton
Sandoval County Resident
