

Addendum # 1

Prisoner Meals and Commissary Services

RFP# FY21-SCDC-01

1. Are you able to share the current vendor's meal pricing scale?

51-75 \$5.69
76-100 \$4.11

2. What are the commissionable Commissary sales for the past 12 months?

This numbers are based on the reduced inmate population:

Regular commissary sales	\$52,764.91
Chuck wagon sales	<u>17,891.68</u>
	\$70,656.59

3. Is the current vendor currently running a mobile cart solution that allows inmates POS Commissary? If no, is the expectation that this program will be implemented once the jail ADP becomes closer to 400?

Yes. They run a "cold cart" once a week.

4. Would Sandoval County accept a cold-hot-hot meal pattern?

Yes.

5. In reference to section B.2 under nutritional requirements, for reaching the average daily minimum protein requirement of 70g does the county require the daily 8 oz. meat requirement to be met from meats cooked weight or raw weight?

The County requires 8 oz. for meats cooked.

6. Please provide the Average Daily Population per month over the 12 months.

Between August 20, 2019 and August 20, 2020, the ADP is 144.

7. What is the rated capacity of the Facility?

511

8. What is the current spending limit? Do you anticipate any changes to this?

\$580,000.00. The budget will increase as population expands with federal population.

9. Is the County requiring the Commissary vendor interface with the County's Jail Management System (JMS)? If so, who will be responsible for the JMS interface cost?

Yes, the food service/commissary provider will be responsible for the interface cost.

10. If the commissary vendor will be responsible for the cost, please provide the following:

- a) JMS company contact: SECURUS (Xjail) Joseph Hell-Pomares
- b) JMS company contact phone number: 612-203-3216
- c) JMS company contact's email address:
jhellpomares@securustechnologies.com

11. Will the vendor be allowed to place their equipment on the county's network?

Yes. Must be outgoing only.

12. How many microwaves will the vendor need to provide?

13 pods. 1 microwave per pod. The vendor also must have 2 extra stored on site at all times. 15 in total.
