Comments:

COUNTY ETHICS BOARD PUBLIC COMMENT FOR ETHIC BOARD

TOPIC:

Ethics Board meeting public comments not available on county web site

DETAILS:

No board meeting public comments are available on the county's public comments website page;

<https://www.sandovalcountynm.gov/commission/public-comments/>

This page only allows viewers to see County Commission and Planning & Zoning Department public comments. No Ethics Board comments are listed here even though there were 3 public comments from the Ethics Board June 30, 2020 meeting. If there are comments for the Board's September 10, 2020, none appear here either.

SUGGESTIONS:

1) County Website: Suggest changing county Public Comments website page (<https://www.sandovalcountynm.gov/commission/public-comments/>) to include a way for viewers to see the public comments for the county Ethics Board. This page currently provides a link to the Planning & Zoning Department meeting comments. A similar link would be useful for the Ethics Board public comments.

2) Public comment PDFs: Each public comment is presented as a PDF document. But the PDF document is just a graphic scan of the comments in which the comment text is just part of the graphic. Viewers cannot select or search text public comments. Suggest changing the PDF public comment documents to include selectable and search text instead of a static graphic image.

3) Public comment attachments: County website page for public comments submission only allows a textual comments to be submitted. Website page does not provide a way for the public to also attach documents for better comment clarification. Suggest changing county Public Comments website page (<https://www.sandovalcountynm.gov/commission/public-comments/>) to include a way for viewers to attach documents as part of their public comment.

To include an attachment with this comment, I am submitting an attachment PDF document to the following Ethics Board general email address;
