Comments:

Dear Commissioners,

I read that your agenda tonight includes voting on whether to give yourselves a raise. I stand in opposition to this at this time. People throughout the county are suffering right now. People have lost work, are ill, and are struggling to make ends meet. This is not the time to give yourselves a raise. This is the time to look outward at what you can do for the community.

I would support this resolution once we have recovered from the economic impact of COVID-19.

Best wishes,
Billie
