Comments:

I see that the County Commission is set to vote in raises for several staff and commissioners. I think would be a terrible message to send to your constituents if you do vote to give a raise to yourselves. Many people are out of work or have had reductions in their paychecks at this time and then to vote to use county money to give yourselves raises would be disrespectful to those constituents and completely out of touch as to what the community is going through right now. Please consider using that money to help your constituents rather than lining your own pockets even further.
