## Comments:

Re: Item 9A, I support this resolution. It is written in positive language with a good justification for the recommended legislative change.

Re: Item 10A, I strongly oppose this resolution. The resolution does not contain justification for the wholesale dismissal of the work of the New Mexico Civil Rights Commission. The result is an impression that Sandoval County does not believe that civil rights injustices exist. That is simply not the case. I recommend a no on this resolution as written and for a subsequent draft, if any, to incorporate broad input from the public.

Re: Item 10B: I do not support this at this time. The strain of the COVID-19 pandemic has hit all Sandoval County residents, with the greatest burden carried by people who have lost jobs or have had to give up employment to care for children. A 15% raise is large under any circumstances, at this time it is simply inappropriate and sends the wrong message to all residents.

Re: Item 10C, I do not support item 2 under "County Opposes the following". I strongly recommend deletion of this item. See comments under Item 10A above.
