

## Addendum #2

RFP FY21-ZOCALO-02

February 1, 2021

### Questions asked (in black) and answered (in red):

- Is there an ice machine on the property? I toured the property but I didn't recall seeing one. **The storage room will accommodate an ice machine provided by the offeror. The department would consider providing an ice machine on site at our expense. This is not a guarantee.**
- Does the staff that set up the tables and chairs also set up the bar structure or does the bartender need to build the bar set up when they arrive? **The set up team will place the bar and additional tables needed by the bar as noted on the layout.**
- Do we need to provide our own Point of Sale system or is there one on property? **The offeror will provide the POS.**
- What was the average size of event held there. I know it seems to average about 20 events per year...but I wondered what the average size was in 2019 **The average event size for 2019 was 127 guests.**
