

Communications Trailer

ITB FY22-SCFD-02

Addendum #1

Issued October 25, 2021

- The completion date is stated as June 30, 2022. Due to current supply chain issues with trailers, building materials and equipment, that delivery date will be very challenging. Will delivery dates beyond June 2022 be considered?

Every effort should be made to meet the requested deadline of June 30, 2022. Delivery dates after June 30, 2022 will be considered, but will be pending the approval of a grant extension request. The anticipated delivery date needs to be included if it is after June 30, 2022.
