Comments:

What was the process used for choosing New Mexico Demographic Research in redistricting? In addition to demographic research, this company offers political consulting, messaging, polling and media. Given that the owner is a former Republican New Mexico State Senator and the company filed on 11/23/2020 (right after the 2020 election) and in light of the fact that state GOP legislatures are actively gerrymandering, it would seem that the company's owner has a conflict of interest.
