**Comments:**

Greetings Sandoval County Commissioners and thank you for everything you do.

The populations of Sandoval County and Rio Rancho in 2010 were respectively 131,621 and 87,387

The populations of Sandoval County and Rio Rancho in 2020 were respectively 148,834 and 104,046

The population of the County grew by 17,213 and of Rio Rancho grew by 16,659. 97% of the growth in the County was in Rio Rancho.

Districting is much about the numbers of people represented by each of the 5 districts. The population of the county is 148,834 with an ideal sized district of 29,767. The population of Rio Rancho is 104,046

Redistricting should reflect the county's growth. Rio Rancho's population is 69.9% of the County. For the citizens of Rio Rancho to be fairly represented on the Sandoval County Commission, 3 commission districts should be within Rio Rancho's political boundaries.

Very Respectfully,

Carlos Sanchez
