Comments:

I am so pleased to see an alternative plan that is now proposed: the Fair Sandoval Plan.

I live in Placitas and the plan proposed by the county split the town of Placitas as well as carving and sectioning areas of the county in ridiculous ways. I do not believe that interested parties were consulted before creating the original plan that was proposed.

The Fair Sandoval Plan appears to be a reasonable and conscious plan that takes equitable representation into account. I surely hope you will vote to advance this thoughtful new proposal.
