Map D (submitted by Dave Heil) leaves the current boundaries mostly intact while moving Corrales to the same district as Placitas. This is the most fair plan of the 5 and keeps like neighborhoods more intact than the other choices. Otherwise the other plans look like an intentional gerrymander because the population of Sandoval County is 148,834 and the ideal size of a district should be 29,767 for each of the 5 districts. 70% of the population live in Rio Rancho so at least 3 districts should encompass the city.
