Comments:

Hello, I have reviewed and am in full support of the Sandoval County Redistricting plan known as "The Eichenwald Plan" (aka the Issac Chavez Redistricting Plan). 1)This plan allows for easily defined and recognizable district boundaries. 2)It facilitates the ability of the district Representative to have the most efficient access to their constituents. 3)It does not cut up existing, historically represented districts (such as the Village of Corrales), By reallocating (splitting off) part of that Village into a district that spans all the way to the foothills of the Sandias, the Village will be poorly and inconsistently represented. 4)The Eichenwald Plan will still maintain the required population allocation within an acceptable percentage of variance. It is a logical, workable, politically balanced and fair plan. PLEASE CONSIDER THE EICHINWALD PLAN SERIOUSLY AND FAIRLY AND ADOPT IT AS THE SANDOVAL REDISTRICTING PLAND FOR THE NEXT 10 YEARS!!! Thank you for your time and honest consideration of the Eichenwald Plan. Pauline Benavides, Corrales, Sandoval County
