Comments:

Plan D is disrespectful to Corrales Heights. There is an obvious and clean border to use in this area in the major highway of 528. Instead of using logic, the border cuts up Corrales Heights along residential areas using roads like Pepe Ortiz Rd. and Las Marias Ave. This draws lines through people's lives and divides neighbor from neighbor. If you are on the wrong side of the street your district now goes clean across the river to the Sandias instead of with the people you are closest to. These borders are confusing and unnecessary.
