Comments:

Greetings,

As a citizen of the Town of Bernalillo and member of the sovereign nation of the Pueblo of San Felipe, the following is provided as public comment to the Sandoval County Commission regarding plans for redistricting.

I am in support of the Eichwald Plan for redistricting as this plan demonstrates a reasonable and fair mapping of all impacted communities. The boundaries that are proposed are logically set with consideration to compactness, contiguity, and preservation of small towns and standing districts. The majority of the other plans presented do not serve the districts well as they propose drastic changes that do not meet existing and future needs. As a dedicated voter, I have the right to choose my representative rather than have political partisan plans pick voters.

In support of the Eichwald Plan, thank you for your time.
Alissa Chavez Lowe
