Please consider choosing the Eichwald Plan for redistricting. The plan achieves all 6 of the non-partisan redistricting principles and is the only plan with competitive districts, meaning that politicians have to earn the right to make decisions for us. We deserve clean borders that are easy to understand. They deserve lines that respect their interest and the lives they lead. With Commissioner Eichwald's plan, we, the voters, get to pick our representatives democratically, rather than the politicians choosing their voters.
