Comments:

Dear Sandoval County Commissioners,

I am expressing my concerns regarding the too quick adoption of new redistricting.

- The pueblos should be consulted.
- The plan has been designed by a Republican alone, whose priorities have been made clear by his history of supporting special interests as well as the record of his major donors.
- This is alarming to those who believe in a two party system. The fair plan designed by democrats should be considered and a compromise reached.

Thank you.
Laura Robbins
