**Comments:**

Dear Commissioners:

I wanted to communicate my strong support for Resolution 1-12-22.10D to accept Circle Drive into the county road maintenance inventory. For decades, Sandoval County has treated Circle Drive as a public road and has maintained the road. Since ceasing maintenance in March 2021, the road has degraded incredibly quickly, impacting public safety and access. As a resident and property owner, I fear that in the case of an emergency, police, firefighters, and/or ambulances would not be able to access to the neighborhood quickly. For over 50 years Sandoval County has provided road maintenance, serving the tax paying land owners and residents of Evergreen Hills. Accepting Circle Drive and FR333D back into the road maintenance inventory will improve public safety in Sandoval County.

Respectfully,  
Jory Hanselman Mayschak
