Comments:

In regards to this item on your agenda: Request for a Motion to Adopt Resolution No. 1-12-22.10D Approving the Circle Drive-Maintenance Inventory Acceptance Resolution.

I live in this neighborhood, and the roads have fallen into horrible disrepair. For years (decades), the county provided some minimal road maintenance. Over the past year or so, that maintenance stopped due to a technicality and the road is in horrible shape. Just last week, I had to have my engine mount replaced in my car; a repair that traces directly to the bumpy road. More serious even, there have been issues in getting emergency services to our neighborhood; I encountered an ambulance parked near our road about a month ago that could not get into the neighborhood due to the low clearance and bumpy roads. PLEASE re-establish the road maintenance. (By the way, the road that belongs to the forest service was also once handled by Sandoval County, but that agreement has also gone by the wayside. That road is even worse [our little Honda Fit can barely get out of the neighborhood because it grounds out on the forest road]. Hikers and other folks wishing to enjoy the outdoors are met with a horrible and intimidating road that also deteriorated over these last couple of years without maintenance.)

Thank you!
