

# Placitas Herd Quarter 3 2022

- ▣ Placitas Herd Survey
  - 168 horses roaming in 22 bands
  - one new band has joined the herd and was observed for the first time in 2022
  
- ▣ Immunocontraception
  - 77 PZP treatments administered to date in 2022
  
- ▣ Five foals born in 2022 to date representing a 78% decrease over the pre-treatment foaling number
  - As the Placitas herd has an extended breeding season, additional mares may foal later in 2022.
