Comments:

I have served as an official poll watcher in several elections in Rio Rancho. After moving here from Virginia, I have been extremely impressed by the professionalism of our local election officials. They are meticulous in their practices, and fair and impartial in their approach to every voter, regardless of party affiliation. They take extreme care in reconciling the machine totals, recording the start and end numbers, and accounting for each ballot. They are so careful in reporting the results. Nothing is released without careful checking and re-checking.

Based on my careful observations, it would take a lot of evidence to convince me that our elections are not free and fair. No evidence of wrongdoing has ever been presented! None of the innuendos and loose talk are persuasive, particularly based on my direct observations of the election process.
