Comments:

I do not support false claims about election fraud and conspiracy theories and unsubstantiated claims of ballot harvesting and other ridiculous claims made in the movie "2000 Mules". Please do not waste Sandoval County's time and money on unsupported lies. The 2020 Election was the most secure in our nation's history. Stop trying to denigrate our Election Systems and create fear, uncertainty and doubt about our elections. They are secure and well run period.
