Emailjudith.j.gordon@gmail.com**Comments:**

By spreading lies and misinformation about voter fraud, which is vanishingly rare, the Republican members of the commission are engaged in voter suppression. Even worse, by spreading the Trump Big Lie, they are deliberately undermining Sandoval County voters' trust in our democratic system of government. This is a flagrant violation of their oath of office as commissioners and their responsibility to voters. When he joined the Air Force, Commissioner Jay Block swore to protect the country against all enemies, foreign and domestic, but he is clearly no longer committed to this principle. Instead, he and his Republican henchmen on the commission, Michael Meek and David Heil, have betrayed their responsibility to their constituents. They do not deserve to be in positions of public trust.
